What Parents Say about APMA

As parents, we are truly grateful to APMA for the guidance and support they provided Palash throughout his NEET journey. Beyond academics, the teachers instilled discipline, confidence and the right attitude towards preparation. Their personal attention, motivation and timely guidance made a real difference.Palash's AIR 559 is a result of his hard work, with APMA providing the right platform and environment to achieve his dream. We sincerely thank the entire APMA team for being an integral part of his journey.

Dr Anagha Pai Raiturkar | Dr Pradyumna Pai Raiturkar

Palash Pai Raiturkar

A year ago, we joined APMA after a difficult experience with another institute. With Mustafa's journey at APMA, the path became clearer and his preparation more focused.APMA truly puts children first through structured teaching, clear goals, discipline and, most importantly, dedicated personal attention. The teachers are passionate, supportive and genuinely concerned about every child's academic and overall well-being.We wholeheartedly recommend APMA for NEET preparation and sincerely thank the entire APMA team for believing in and supporting Mustafa throughout his journey.

Mr Huzefa Ginwala | Ms Hazeka Ginwala

Mustafa Huzefa Ginwala

We sincerely thank the APMA NEET Coaching Institute for playing an important role in our daughter's excellent NEET performance.We truly appreciated APMA's structured approach, regular tests, feedback, and continuous monitoring, which kept her focused and confident throughout her preparation.We are grateful to the dedicated teachers for simplifying complex concepts and providing constant guidance and encouragement. Our heartfelt thanks also go to the counsellors and mentors for their timely support in managing exam pressure.The strong support system at APMA—including doubt sessions, study material, exam strategies, and personal guidance—went beyond classroom teaching.We are truly grateful to the entire APMA team for helping our daughter achieve a strong NEET score and build a solid foundation for her medical career.

We want to express our deepest gratitude for our journey with APMA. What has struck us the most about APMA is the passion for delivering the best to the kids - ALWAYS. The course content is meticulously designed to help the kids at each and every step of the journey. The insistence on discipline through the 2 years is a true life lesson not just for the kids, but also their parents. The efforts taken by each and every subject teacher to tirelessly resolve every single doubt of every child is truly admirable. The empathy and personalized care demonstrated during the counselling sessions is unparalleled. We have formed a strong bond with this prestigious institute which we will cherish for life.

Mrs Preeti | Mr. Krutank Vaidya

Manav Vaidya
AIIMS Jodhpur

Coming from a non-medico family, guiding Girija through NEET felt daunting — full of doubts and anxiety. The moment we placed our trust in APMA, that changed. Their discipline, personal attention, and genuinely caring teachers made the journey smooth and stress-free. Two years later, Girija secured a top rank and became the first student to join BJ Medical College in the 24-25 batch. As non-medico parents, we couldn't have done this without APMA's guidance. Wishing APMA continued success — may it become the name every family across India trusts for medical entrance guidance."

Mrs. Prajakta | Mr Vikram Bhuskute

Girija Bhuskute
BJ MC Pune

Hardworking students need proper guidance and personal attention. We were able to get this in APMA. Under the leadership of Dr. Prabhu Sir, all the esteemed teachers make sure that students are able to grasp the concepts and apply them effectively. The Performance Enhancement Programme (PEP) helped Aarya for in-depth analysis and correction of mistakes. Dr. Prabhu Sir, Dr. Himani ma'am and Dr. Sheetal ma'am set realistic goals and helped us to achieve them.

Thank you so much Team APMA for guiding us throughout this NEET journey.

Dr. Santosh & Dr. Deepali Latkar

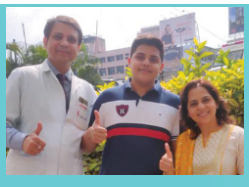

Aarya Latkar
BJ MC Pune

At APMA, academics for NEET is well taken care of by able and supportive teachers.Doubt solving is enabled by having dedicated teachers for solving the doubts. Focus is NCERT based as prescribed by the NTA.NEET preparation primarily needs coaching and studies but at the same time there are elements of mental strength, reassurance, self confidence and most of all sustained focus coupled with planning. Raavi was helped a lot to achieve this. APMA believes in a holistic approach to the examination and it works.Pressures of NEET are ably handled by the counsellors. APMA is cautious to not over burden the student leading to an unnecessary 'burn out'.APMA is family, and if you trust your family, then trust APMA.

Dr. Ruchira Saxena | Dr. Sameer Saxena

Raavi Saxena
BJ MC Pune

In the middle of the previous class course, Aman started losing his focus resulting in deteriorating performance and lost confidence. Prabhu Sir's well placed systems and his interactive sessions along with Team APMA's constant guidance, detailed study material and NCERT based test series helped Aman improve tremendously. APMA is a very comprehensive coaching academy which understands the students' needs, strengths and weaknesses and guides each one with a game-changing tailor-made programme. We are thankful to Prabhu Sir for his timely intervention, help, inspiration and guidance.

Mrs. Archana | Dr. Parag Sancheti, *MS (Orthopedic)*

Aman Sancheti
BJ MC Pune

From Directors' Desk

NEET is a much talked-about examination. Quite often, the perception is that it is a very difficult exam. In reality, it is not an extraordinarily difficult exam or an exam reserved only for geniuses; what makes the success ratio unfavourable is the disproportion between the number of aspirants and the available seats.

A focused approach and a proper support system can considerably improve the odds and help a student achieve his or her dream of becoming a doctor.

NEET, essentially, is for students who can work with discipline, consistency and the right strategy.

When preparing for such a competitive exam, random studying does not help. Students need to understand the syllabus, know what the examination demands, practise the right MCQs, take regular tests and revise systematically.

But having a plan is only one part of the process. To follow it consistently, students need systematic coaching, proper direction, regular monitoring and academic guidance. This is where our faculty, Counsellors and Mentors play an important role. We do not stop at teaching; we make students aware of what they need to do and, more importantly, ensure that they actually do it.

Over the years, our well-established systems, structured timetables and time-bound, accountable study practices have helped us achieve remarkable results and conversion rates. This year too, in RE-NEET 2026, our students have performed to their optimum potential and are securing admissions in reputed GMCs and MUHS colleges.Our responsibility, however, does not end with NEET. Through iMAC – Individual Medical Admission Counselling, we continue to guide students and parents through the admission process and help them make the right choices based on their rank, category, preferences and individual circumstances.

Our association with a student begins in Class 11 and continues until they reach medical college.

At APMA, we are not just preparing students for NEET. We are giving them the right direction, the right system, the right approach and the right support to achieve their goal.

Students First... Always.

Warm regards,

Dr. Abhang Prabhu | Prof. Sachin Haldavnekar | Dr. Himani Tapasvi | Dr. Sheetal Shrigiri
